EDUCATION

ABES Engineering College

Bachelor of Technology in Computer Science and Engineering | CGPA: 8.2

Ghaziabad, India

2023 – 2027 (Present)

Mayo International School, Patparganj

12th Standard | Percentage: 86%

New Delhi

2022

JKG International School, Indirapuram

10th Standard | Percentage: 95%

Ghaziabad

2020

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, HTML, CSS

Machine Learning & AI: Machine Learning, Natural Language Processing (NLP), Data Analysis, Data Visualization, Feature Engineering

Libraries & Frameworks: NumPy, Pandas, Matplotlib, scikit-learn

Developer Tools & Environments: FastAPI, Jupyter Notebook, VS Code, Git, GitHub, Figma, Canva

Core Concepts: Data Structures & Algorithms, Object Oriented Programming, DBMS, Computer Networks, Operating System

Soft Skills: Prioritisation, Team Collaboration, Written Communication

PROJECTS

Retainly | Full-Stack, AI, NLP, Python, REST APIs

- Leveraged Python to build a customer churn prediction model, decreasing model development time by 30% compared to previous tools and providing actionable insights on customer behavior.
- Spearheaded the development of a customer churn prediction model using Python, achieving 85% accuracy in identifying customers at risk of churn using preprocessing techniques.

Synsera | Full-Stack, AI, NLP, Python, REST APIs | GitHub | Live Demo

- Developed a full stack web app with 2 distinct user roles (team member and team lead) to track productivity through daily check ins.
- Integrated NLP sentiment analysis across 3 burnout severity levels to flag at-risk team members based on text responses.
- Designed a lead dashboard with 5+ insight views aggregating check-in trends to support early team intervention.

CivicSphere | JavaScript, HTML, CSS | GitHub | Live Demo

- Building a civic awareness platform covering 10+ topics including constitutional rights, duties, and government schemes for Indian citizens.
- Structured content into modular sections written in plain language to improve readability for users with varying education levels.
- Designed a mobile first UI with keyword based filtering and responsive layouts to improve accessibility across devices, targeting 70%+ of Indian internet users accessing via mobile.

Martial Arts Website | HTML, CSS, JavaScript

- Engineered a 5-page responsive website covering 4 training programs, weekly schedules, and instructor profiles for a martial arts academy.
- Optimized layout across 3 breakpoints (mobile, tablet, desktop) using semantic HTML and efficient CSS for fast load times.
- Structured clear site navigation reducing the number of clicks to reach key information to under 2 from the homepage.

CERTIFICATIONS

Cyber Security Fundamentals – IBM Skills Build

Java – HackerRank

RESPONSIBILITIES & INVOLVEMENT

Graphics Coordinator

Google Developers Group, ABES Engineering College

2023 – Present

Ghaziabad, India

- Led visual branding and promotional design for workshops, technical events, and community initiatives at GDG ABES..
- Collaborated with the core team to maintain a consistent brand identity and increase student engagement across community platforms and events.

ACHIEVEMENTS

- Achieved Uttar Pradesh State Rank 14 in NTSE Stage I and qualified for NTSE Stage II, placing among the top performing students from over 1 million participants nationwide.
- Solved 200+ Data Structure and Algorithm problems on Leetcode and GFG, strengthening problem solving and analytical thinking skills.
- Achieved 91 percentile in JEE Mains, placing among the top 10% of over 1 million students nationwide.
